The Committee is grateful to the Hon. Deputy Minister and Officials for attending upon it and assisting in the deliberations.

2.0. REFERENCES

The Committee referred to and was guided by the following documents amongst others during its deliberations:

- The 1992 Constitution of the Republic of Ghana;
- The Standing Orders of the Parliament of Ghana;
- The Public Financial Management Act, 2016 (Act 921) and
- Guidelines for the Approval of Tax Waiver Under IDIF Program.

3.0. BACKGROUND

As part of the Governments industrialization agenda, the Ministry of Trade and Industry is facilitation the establishment of industries across the country under the One District One Factory Program. As part of the program the Government intends to extend tax incentives to a number of factory that seek to partner government in its industrialization drive. To this end, the Government intends to grant tax reliefs for the establishment of the Le Meridien Hotel, a hospitality facility in the Greater Accra Region.

Le Meridien Hotel is Hospitality facility which is expected to open in 2025 and it is expected to be a full-service property with 161 guest rooms, two restaurants, two

bars/lounges and two coffee shops, 709 m² of meeting space, an outdoor pool, an exercise room, a spa, a business Centre, a gift shop, a salon and a clinic and appropriate back-of-the-house facilities. The property is to be operated by Marriott International.

The hotel is located on Parcel 14 Patrice Lumumba Road, Airport Residential Area, Accra, Ghana. The site measures approximately 6,479 m². The Hotel is to be located in a residential suburb which supports the greater Accra Central Business District. With its proximity to Kotoka International Airport, Ghana's diplomatic corps, good road access and visibility, the proposed hotel is expected to benefit immensely from the corporate market that exists in Accra.

4.0. REQUIRED WAIVER

To ensure the execution of the projects and in line with the tax exemption regime under the One District One Factory Program, the Ministry of Finance is seeking Parliamentary approval to exempt import related taxes and domestic VAT up to the Cedi equivalent of US\$6,389,428.00 on materials and equipment to be imported and procured domestically for the Construction of the facility. The Ghana Revenue Authority (GRA) has determined the quantum of taxes payable on materials and equipment to be procured under the project.

Gross taxes per the GRA computation amounted to Six Million, Three Hundred and Eighty-Nine Thousand and Four Hundred and Twenty-Eight United States Dollars (US\$6,389,428). The breakdown is summarized below:

Table 1: Summary of Waivers Required for Le Meridien Hotel Project

	EXIM Levy	73,006
	Sub Total	3,919,628
Local Taxes	Domestic VAT	2,469,800
	Sub Total	2,469,800
Grand Total		6,389,428

5.0. OBSERVATION

The Committee having carefully scrutinised the request, made the following observations:

5.1. Assessment of Tax Liabilities and the Waiver Required

The Committee noted that, in an effort to speed up industrialization and in line with government overall policy of granting tax reliefs to new companies under the One District One Factory programme, the government intends to grant tax reliefs on equipment and materials to be imported for the execution of the Le Meridien Hotel projects. This is consistent with governments overall policy to propel industrial growth under the 1D1F program. The project for the construction will also contribute significantly to creation of employment in the Tourism and the Hospitality Sector.

To achieve these objectives, the Ministry of Finance through the Ghana Revenue Authority has assessed the applicable taxes, duties and levies on equipment, materials and other items to be imported or procured locally for the project and have recommended a total tax liability of up to the Cedi equivalent of US\$6,389,428 for which exemption should be granted.

5.2. Justification of the Exemption

The Committee noted that Subsection 4 of the Ghana Investment Promotion Centre (GIPC) Act 2013, Act 865, authorizes the board of the Authority to negotiate specific incentive packages for strategic investments in addition to the incentives available to any enterprise under the tax, customs and other laws. This is for the purpose of promoting identified strategic or major investments. The Board of GIPC have therefore satisfied itself that the Construction of the Le MERIDIEN Hotel is a strategic investment that deserve to be supported under this Act and intends to extend the needed support to the investors to realise their objective.

5.3. Compliance with Tax Obligations

The Committee observed that 4-Mac Limited, the company implementing the project provided tax clearance certificate as proof of having met its tax obligations to the State. Officials from GIPC further informed the Committee that submission of tax clearance is one of the requirements for the approval of investment as a strategic Investor under section 28(4) of the GIPC Act, 2013 (Act 865).

5.4. Job Creation

The Committee was informed that the Le Meridien Hotel Limited is a Four Star Hotel to be located at the heart of Accra. The facility which is expected to be opened in 2025 will provide 161 executive guest rooms, two restaurants, two bars/lounges and two coffee shops, 709 m² of meeting space, an outdoor pool, an exercise room, a spa, a business Centre, a gift shop, a salon and a clinic and appropriate back-of-the-house facilities. The Hotel will be operated by Marriott International in accordance with internal operational standards in the hotel industry.

The Hotel is expected to create 406 direct jobs and about 1,000 indirect jobs at the construction phase. At its operational phase, the facility will create some 145 direct jobs and 435 indirect jobs.

6.0 DOWNWARDS REVISION OF THE AMOUNT TO BE WAIVED

The Committee noted that included in the taxes to be waived was domestic Value Added Tax which is a domestic indirect tax. The Committee however considered that in the light of the new tax exemptions regime, domestic VAT should be removed from the basket of waivers. The table below shows the recommended tax lines to be waived.

Table 1: Summary of Revised Waivers for the Le Meridien Hotel Project

Tax Category	Tax Type	Amount (US\$)
Import Related Taxes (A)	Import Duty	1,822,505
	Import NHIL	279,189
	Import GETFUND	279,189
	Import VAT	1,465,740
	EXIM Levy	73,006
Grand Total		3,919,628

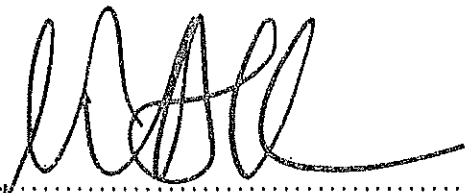

ATTACHMENT: Please find attached as APPENDIX the details of the import taxes to be waived as assessed by the Ghana Revenue Authority (GRA).

7.0. CONCLUSION

The Committee having examined the request is convinced that waivers for which the Committee recommends approval are necessary for the execution of the project and also meet all the requirement of the new exemptions regime.

The Committee therefore recommends to the House to adopt its report and approve by Resolution the request for waiver of Import Duties, Import VAT, GETFund Levy, NHIL and EXIM Levy amounting to the Ghana Cedi equivalent of Three Million, Nine Hundred And Nineteen Thousand, Six Hundred And Twenty-Eight United States Dollars (Us\$3,919,628) on materials and equipment to be imported for the development of the Meridien Hotel by 4-Mac Limited in accordance with Article 174(2) of the 1992 Constitution and Order 169 of the Standing Orders of the Parliament of Ghana.

Respectfully Submitted.
